

Wigan
Council

Request

I would like to request a list of all residential care homes and dual-registered care homes that were operating within Wigan Council between 1973 and 2002. Specifically, for each care home, I would appreciate it if you could provide the following details (where held):

1. Name of the care home
2. Full address, including postcode
3. Type of registration (e.g., residential, nursing, dual-registered)
4. Registered number of beds
5. Name(s) of the registered owner(s) or provider(s)
6. Contact telephone number(s) (where applicable)
7. Date(s) the home was registered and/or operating

If possible, please also indicate whether the care home was operated privately, by the local authority, or by a voluntary/charitable organisation.

Response

Due to the historical nature of the request the local authority are unable to provide an answer for this request.

Data retention is set in Adult Social Care for 10 years. Our data systems have changed a number of times within the timeframe requested and so would not provide clean data.

The commissioning team do not hold records for external businesses and placements are not made under contract, so no contract retention is applicable.
