Request

I am led to believe there is an ongoing case regarding the resurfacing of Newton Gardens in Lowton. We have had 6 new houses built in the street to which outside these properties has seen the area have newly laid footway surfaces whilst the other residents are faced with extremely dangerous trip hazards within the footway.

The information I am looking for is the case reference and correspondence regarding the matter and if money was set aside when the houses were first built in the early 2000s to ensure the footway and carriageway were resurfaced and what plans are in place regarding street lighting within the street.

Response

Thank you for your enquiry regarding the resurfacing and street lighting at Newton Gardens, Lowton.

Following a review of our records, I can confirm that we do not hold the specific information you have requested regarding any case reference, correspondence, or funding provisions related to the original development of the estate in the early 2000s. Additionally, we do not currently hold details of any planned resurfacing works or street lighting upgrades for this location.
