I am after information relating to the number of potholes in your jurisdiction. In particular, are you able to provide me with:

1. As of 1 June 2025, how many reported potholes in your local authority area were awaiting repair (i.e. logged but not yet filled)? Please provide the most up to date figure.

201 defects currently awaiting repair.

2. How many miles of road in your jurisdiction are currently listed as GREEN, AMBER or RED in line with the RCI Index? Please provide the latest data you have in miles.

Classified Road Network

Green 180.8 miles,
Amber 47.6 miles
Red 6.1 miles

The unclassified network only reports on the red condition.

Red 80.0 miles

3. Based on current repair rates and available resources, what is your estimated timescale to clear the entire backlog of reported but unrepaired potholes as of 30th June 2025? Please provide an answer in months or years

Estimated timescale of 10 working days with current resources.
