

REQUEST 18322

I would like to know which garage plots are available to rent at the rear of Margaret Street Springfield / Pagefield Close Wigan. There are 3 rows of garages, 14 garages in total. Not all of these garages are in use and I would like to know which are available. These garage plots are built and maintained by us, the owner and it is just the base that is rented annually.

I have been asking the local council about these garages for nearly two years and all I get in reply is that a review of all garages in wigan is in process and no further information available.

RESPONSE

Our current records indicate that 4 of these garages are void and not in use.

However, Wigan Council is presently undertaking a borough-wide review of all garage lettings. This review is intended to ensure that garage provision remains appropriate for residents and continues to represent good value for public money.

As a result, the Council has suspended the letting of all garage plots and is not currently accepting new applications while the review is ongoing.
