

**Wigan<sup>♥</sup>  
Council**

## Request

I would like to be provided with details as to whether Lilford Park is council land.

I would like to be provided with details as to who is responsible for maintaining Lilford Park and the pruning of trees in Lilford Park.

I would like to be provided with information regarding the Wigan council policy governing the maintenance of trees, specifically those hanging over the property of others.

## Response

The Council hold the freehold of Lilford Park up to the woodland edge. The Council lease the woodland from the Lilford Estate.

The maintenance of the park and woodland is the responsibility of the Council's Parks and Streetscene service.

Details of the Council's policy on maintaining overhanging trees can be found on the Council's website - [Trees and woodlands](#) / Tree management principles. Also included in the website is a reporting function for overhanging trees.
