

Request

Please could you provide the following information:

- A list of all instances wherein the Council has issued a Notice to a landowner under Section 165 of the Highways Act 1980 - the list to indicate (for each Notice) the reason for the Notice, the action it required of the landowner and a link to any online information about the Notice.

The information should ideally cover the period during which the Highways Act has been in force (i.e. since 1980).

If this is not possible, then I would be grateful for your guidance as to a period for which I could reasonably request the information (which I imagine depends on the extent and format of your relevant records).

Response

Our records show that we have never issued a notice to a landowner under section 165 of the Highways Act 1980.
