

REQUEST 18615

Flat above 101 Bradshawgate WN7 4ND is showing as "council tax band deleted" with effect from 9 July 2010, can you clarify what was the reason for this?

1. Was it for one of the following reasons the property is derelict or undergoing major renovations if not please provide reason.
2. Does the council still hold all the information used to delete the tax band?
3. Has any council tax been paid in the last 10 years.
4. Can the council clarify under what circumstances would a tax band be deleted?

RESPONSE

1. It would not be a decision of Wigan Council to delete a Council Tax band from a property. This is the decision of the Valuation Office Agency. Further information can be found by visiting their website [Contact the VOA - GOV.UK](#)
2. As the data is older than 6 years this information is no longer held.
3. We cannot disclose details of individual accounts or account holders. In situations whereby a property is no longer banded for Council Tax purposes, Council Tax is not chargeable with effect from the date the banding was removed.
4. This information can be found by visiting [Council Tax valuation bands](#).
