

**Wigan[♥]
Council**

Request

1. Is Wigan's approach to ethical procurement built around the CIPS code of ethics?
2. If you have not got this charter mark would Wigan be interested in commissioning this training offer for your staff?

Response

Whilst Wigan Council's approach to ethical procurement is not built around CIPS' code of ethics, we naturally incorporate the key themes of the code. For example, we are committed to eradicating unethical business practices including bribery, fraud, corruption and human rights abuses, such as modern slavery; we actively support and promote social value.

Potentially for consideration.
