

I would like to request a FOI disclosure for all the details regarding the "Speed Limit on B5207 - Golborne Road, Ashton-in-Makerfield".

1. Please provide details on what the current speed limit is on B5207 - Golborne Road, Ashton-in-Makerfield. - From its junction with/to "Wotton Drive" and "East Street" - What3Words (///hardly.files.only, ///driver.closes.dime). As it seems signs of 20mph signs for schools zones are placed at these junctions but no signs of a "fixed/legal speed change" as the 30mph board is missing?

The enforceable speed limit of the B5207 Golborne Road is 30mph along the stretch from its junction with Bolton Road to the section where the road becomes rural and terminal signs state the change in speed limit to 40mph.

The existing 20mph school safety zone signs are to be removed and replaced with School 20 when lights show signs.

2. Are there any plans to adjust this limit in the future?

There are no plans to adjust the speed limit in the future
