

Please could you provide details of any current frameworks, approved provider lists, or contractual arrangements that your Local Authority has in place relating to the supervision of families within Children's Services. Specifically, I am interested in services that involve:

- Supervised contact between children and family members
- Family support or intervention services delivered in the home or community
- Any specialist supervision services commissioned as part of safeguarding or child protection plans

For each relevant framework or supplier list, I would be grateful if you could include:

1. The name and scope of the framework or arrangement
2. The start and end dates of the current agreement
3. The names of any providers currently approved or contracted under the framework
4. The process by which new providers can apply to join or be considered
5. The contact details for the team or individual responsible for commissioning these services

We don't have any frameworks, approved provider lists or contractual arrangements in place. We may however spot commission if required.
