

Request

1. How much the council has spent since 1 January 2020 on removing Union Jack / British flags from public property (for example lampposts, street furniture, or other council-owned items).
2. Which companies, contractors, or agencies carried out this work, and when.
3. A breakdown of costs where available – for example, hourly or per-shift rates, block bookings, or other associated charges.
4. If the work was done by council employees, please provide an estimate of staff time spent and the equivalent cost.

Response

£300-£400

No external companies. If work is required, this has been undertaken by internal Highway Operational resources.

As the demand for removal of flags in our borough has been minimal, we do not hold this information as this will be done on a ad-hoc basis during normal working patterns and there be no need for block bookings or planned works to complete.

Estimated around 3-4 Hours
