

Request

This survey has been developed with input from several Government agencies and departments because there is no national system in place to gather data held by Local Authorities regarding noise complaints and how Environmental Health teams use informal means as well as the various powers available to them. We are seeking to use the final data to clearly demonstrate the value of EH teams in the context of the proposed reforms in different counties within England. We will be looking to publish these results in a report in early 2026 (working together with other organisations to achieve maximum impact). We will publish a media release and make available a full report on our website upon completion.

Response

[Please see attached Excel file and pdf attachments](#)

V01 – Youth ASB
V02 – Children Playing
V03 – Verbal Abuse and threatening behaviour
V04 – Criminal Damage
V05 – Criminal Behaviour incl drugs/
V06 – Violent behaviour
