

**Wigan[♥]
Council**

Please could I have:

1. A full inventory of all active TROs (Traffic Regulation Order) held by the council
2. Information on whether any TROs are believed to be missing or have gone missing since 2000
3. What streets the missing TROs related to and what the TRO enabled

We do not hold all active TROs in a digital format at present. This is something the Highways team are currently pulling together as part of the Department for Transport recommendations

We believe there to be no missing TROs since 2000
