

As a freedom of information request, please provide, for each financial year from 2018-19 to the most recent available at the point of production, the following:

- 1a tonnes of household recycling collected
- 1b tonnes of collected household recycling rejected
- 1c tonnes of collected household recycling rejected, split by how it was then processed (such as energy-from-waste / incineration, landfill)

- 2a tonnes of non-household recycling collected
- 2b tonnes of non-household recycling rejected
- 2c tonnes of non-household material rejected, split by how it was then processed (such as energy-from-waste / incineration, landfill)

- 3a tonnes of household recycling taken to recycling centres by the public
- 3b tonnes of household recycling taken to recycling centres by the public that is rejected³
- 3c tonnes of household material taken to recycling centres by the public that is rejected, split by how it was then processed (such as energy-from-waste / incineration, landfill)

- 4a tonnage or percentage of material recycled within the UK
- 4b tonnage or percentage of material exported overseas split by how it will be processed (such as recycled or incinerated)
- 4c if available, please provide the tonnage or percentage of material exported overseas split by how it will be processed and destination country.
