

For the purposes of this request, “specialist supported housing” refers to supported living or other supported accommodation arranged or commissioned by the local authority for adults with eligible care and support needs. If your authority uses a different internal definition, please apply your closest equivalent, and note this in your response.

Please provide the information as a snapshot as of February 1st 2026, or the nearest available date, if the preferred date is not possible.

Requested information:

1. The number of adult social care referrals (including open cases referred internally within adult social care for placement or accommodation sourcing) that are currently awaiting a specialist supported housing outcome because the absence of suitable accommodation is preventing placement or move-on.

NOTE 1: This should include, where applicable: referrals awaiting supported living or other supported accommodation, referrals held by placements, brokerage, or commissioning teams, and referrals where housing availability is the primary barrier to placement or discharge.

NOTE 1a: If you do not record this exact measure, please provide the closest equivalent dataset you do hold, for example, referrals awaiting placement, supported housing waiting list, brokerage referrals, or move-on referrals where housing is the blocker
