

REQUEST 19420

We have noted some Japanese Knotweed which appears to be under treatment adjacent to the A580 East Lancashire Road (eastbound) just to the east of the rail bridge and south of Bridge Bank Close.

- Please could you confirm if the Council is monitoring and treating this Knotweed, the known extent of the growth, and the treatment programme that is being followed

RESPONSE

We can confirm that the Council are still monitoring and treating this Knotweed.

28/04/2025 – New growth spreading.
25/09/2025 – x2 large clumps.

The current treatment process is two treatments each year within the spring / summer period.
