

1. Traffic Modelling Data

Please provide the most up to date traffic modelling information available for the areas listed below, including but not limited to:

- Traffic flow modelling
- Junction capacity modelling (e.g., PICADY, LINSIG, or equivalent)
- Forecast data used in any recent or ongoing planning assessments
- Any sensitivity tests or scenario modelling undertaken

Locations: Wigan Road (Atherton), Schofield Lane, The Talbot Roundabout

The latest highways and transport modelling is set out in the Locality Assessment, prepared by transport consultants Systra, which supports the Places for Everyone Plan. These can be viewed on the GMCA website at:

[09.1.16 Wigan Locality Assessments GMSE 2020](#)

[09.01.28 Transport Locality Assessments Addendum - Wigan.pdf](#)

2. Traffic Management Information

Please provide any current or recently prepared documents relating to:

- Traffic management proposals
- Planned or proposed changes to road layouts or signals
- Any mitigation measures being considered or implemented
- Road safety assessments connected to these locations

The latest highways and transport mitigation considerations are set out in the Locality Assessment, prepared by transport consultants Systra, which supports the Places for Everyone Plan. These can be viewed on the GMCA website at:

[09.1.16 Wigan Locality Assessments GMSE 2020](#)

[09.01.28 Transport Locality Assessments Addendum - Wigan.pdf](#)

3. Supporting Documents

Where available, please also supply:

- Technical appendices
- Maps, diagrams, or modelling outputs
- Any consultant reports commissioned on these areas
- Any internal briefing notes or summaries used by the Highways Team

The latest highways and transport modelling outputs are set out in the Locality Assessment, prepared by transport consultants Systra, which supports the Places for Everyone Plan. These can be viewed on the GMCA website at:
