Council

Request

Please can you tell me how many CCTV cameras the local authority operates and how many of these are produced by Chinese companies. Please can you show this as two figures.

Please also provide the total number of the council's CCTV cameras that use either live or retrospective facial recognition and how many of these are produced by Chinese companies.

Response

The Local Authority currently has 612 Public Space CCTV Cameras.

554 – Chinese Manufacturer

58 – Legacy Analogue Unit – Manufacturer unknown

The Authority does not have any Public Space CCTV cameras that support live or retrospective facial recognition.
