## Request

Tree maintenance – Birley Street, Leigh, WN7 1JU

I would like to know which trees have been reported as damaged or dangerous over the past 10 years along with the maintenance that has been carried out on the trees in the street.

I would also like information on any regular or routine checks that have been carried out by the highway agency or any specific tree surgeons.  
Many thanks

## Response

Birch tree works.

Tree stump grinding works and removals.

Prune low branches around the base of several trees including Lime trees.

Fell & remove lime tree and remove tree stump.

Trees on Council land are routinely checked based on their assessed risk. In addition where a reported defect is received, additional checks are implemented.
