

Soldo is prepaid card and spend management solution which is listed on the CCS (Lot 2) and G-Cloud frameworks and is supporting public sector fund disbursement use cases such as Direct Payments and Appointeeship; ensuring public funds are distributed safely and efficiently to individuals or their representatives, enabling them to pay for care, support services, and essential living costs while maintaining oversight and compliance.

Here's some of Soldo's key capabilities;

Prepaid cards, direct debits, standing orders and bank transfers / Instant deposits (including weekends) / Instant card creation / No verification check for users / Mobile app for instant receipt/invoice capture / Hierarchical visibility structure / Reporting suite / Spend analytics (dormant, under spend etc) / Full support via account manager, phone, live chat and email / Controls over card spending (merchant category blocks, cash withdrawal blocks etc) / Significant allowances in terms of spend / Integration with other systems such as CaspaGov

Please could you confirm the following?

1. Who do you currently use as your card or banking provider to facilitate fund disbursement use cases? [Purchase Cards \(Lloyds\), Banking \(Barclays\)](#)
2. When is the contract due to end? [Lloyds – 31/03/27, Barclays – 31/03/27 \(with five-year extension option\)](#)
3. When are you next planning to tender? [In line with contract renewal timeframes](#)
4. Would you be open to scheduling an introductory call with Soldo to understand our solution in more detail? [Please send further details on product](#)
5. Would you be open to trialling the Soldo solution? [As above](#)
