

Request

1. Confirm whether the Council owns or manages street lighting assets (including columns, cables, and feeder pillars).
2. Confirm whether the Council owns or manages highway drainage systems (including gullies, pipes, and culverts).
3. Confirm whether the Council owns or manages traffic signals and associated ducting.
4. Confirm whether the Council owns or manages council-owned underground ducts or services.
5. Confirm whether the Council owns or manages district heating or heat network infrastructure, including any networks owned or operated by the Council.
6. Confirm whether any privately or commercially owned/operated heat networks operating within the area are known to or registered with the Council.
7. If any of the above are owned or managed, provide the relevant department or team responsible.
8. If any of the above are owned or managed, provide a contact email or shared mailbox for future enquiries.
9. If any of the above are owned or managed, provide details of how asset plans or records can be requested outside of the FOI process.
10. If information is not held, advise who is responsible where known.

Response

We do own or manage Street Lighting assets.

We do own or manage Highway Drainage systems.

We do not own or manage traffic signals and associated ducting. This is owned/managed by Transport for Greater Manchester.

We do own or manage council owned underground ducts or services.

We do own or manage district heat network infrastructure.

We do have privately or commercially owned/operated heat networks operating within the area.

Street Lighting and Drainage – Highways and Network Management. Traffic Signals – Transport for Greater Manchester. Underground ducting and Heat Networks – Corporate Property and Assets.

Street lighting and drainage:
networkmanagement@wigan.gov.uk

Traffic signals:
gmutc@tfgm.com

Underground and heat networks:
propertysearchrequests@wigan.gov.uk

Requests would need to be made via the property search request email provided in Question 8.

Not applicable.
