

Request

1. Please provide your current dataset for: Bridge Height Restrictions (Physical clearances under 16'6" / 5.03m), preferably containing Bridge/Structure Name & Location Description, Height Restriction (Imperial feet/inches and/or Metric meters), Geo-coordinates (Latitude/Longitude or OS Easting/Northing), and Date of last physical survey or TRO revision.
2. Please provide your current dataset for Weight & Width Restrictions (Enforced structural or environmental limits), with the same details.
3. If this data is published on an open data portal or Web Feature Service (WFS), please reply with the direct link as this also might be useful.
4. If D-TROs centralised onto the DOT are a method you use for viewing changes to signed bridge heights, that would be useful to know.

Response

Please see attached Excel file containing the data requested.
