

The Fastest Draw.

Number of pupils: 2+

Purpose: to revise vocabulary/simple expressions (this can be quite a noisy activity!)

Equipment: Class board and markers.

1. Divide the class/group into 2 teams.
2. Draw a line down the middle of the board to divide it into 2 halves.
3. In turn one member from each team comes to the front to draw in their half of the board.
4. The teacher shows them a word that they then have to draw on the board (they cannot say anything or gesture to their team.)
5. The first team to 'say' the correct word gets the point.
6. The drawer then sits down and the next player gets up to draw.
