

## **Word Association**

Number of pupils: 1+

Purpose: Mixed vocabulary use (or informal assessment)

Equipment: None.

Extension:

Note: Sometimes this activity takes a while to explain. Words cannot be used more than once in a game.

1. A pupil says any word to start.
2. The next player then says a word that has a logical connection to this.
3. The next player then says a word that has a logical connection to the second word only.
4. Once the game has started each player connects to the preceding word only.
5. As all the words are spoken homophones can be connected in different ways e.g. see/sea and C all have the same sound but different meanings and so can be connected in different ways. Pupils can sometimes find this difficult.
