

Can we help you?

Who are we?

GMS Services Ltd

We provide water hygiene, legionella control and commercial plumbing services. We are currently contracted to Wigan Council and employ 24 people.

Area we can help in

Wigan Borough

Equipment/materials we have

How we can help you?

Community clean ups, planting trees, painting etc. Labour for local projects that lack the funding needed. We would look at each job separately regarding cost. For example, we can send staff volunteers free of charge when it fits with the current business demands and the length of the work needed etc.

There may be times when we would need to cover costs but this would only be looking to offer services when we can offer it free of charge.
