

We need your help!

Project Overview

The Rowans & Lindale is a sheltered scheme in Mosley Common, a community of older people with passion in gardening and enjoy being in and benefiting from the garden. This is a communal garden for the residents and the whole community to enjoy.

What support is needed:

Physical support, weeding around garden areas, removing trailing cut branches from the perennial plants, cutting down dead palm leaves, digging out where necessary and generally assisting with heavy lifting.

The Rowans & Lindale Sheltered Scheme

What difference it would make to our project?

The vast majority of residents in the scheme have health issues, which prohibit them from undertaking heavy prolonged physical activity in the garden and with your help, the garden and outdoor space could be used for outdoor functions and activities, also to keep our residents mentally and socially active.
