

We need your help!

Project Overview

Boxing For Better provides opportunities for people in Wigan through boxing and sports, we focus specifically on under-represented groups who might typically find it hard to access physical activity.

We are very participant focussed and try to offer fully inclusive services which aim to develop participants holistically.

What support is needed:

We are in desperate need of admin support, we are seeking a volunteer who can take on tasks such as social media planning, loading new sessions onto the website, dealing with customers, some elements of marketing and basic invoicing.

Boxing for Better

What difference it would make to our project?

We are a not for profit with only one member of staff, as the organisation grows the admin tasks are become quite a large chunk of what is required to keep the business moving forward. Whilst our director Dave delivers on every project we run, which consumes most of the day, his evenings are taken up with all the admin tasks. Having some support in this department would mean that things would be processed more promptly with greater attention. It will also free Dave up to focus on the sessions which have the greatest impact on our participants.
