

We need your help!

Project Overview

We are a multi faceted organisation meeting needs in our local community which include: sustainable low cost cafe and food distribution hub, cost of living crisis, mental health support, support with accessibility issues such as disability, learning needs and inequality in the workplace.

What support is needed:

We would very much appreciate help with the production of a couple of signs that can go on the wall outside the cafe.

Café Camaraderie CIC

What difference it would make to our project?

It would make an enormous difference as we aren't that easy to find. We need some signage to make it clear who we are and where.
