

# We need your help!

## Project Overview

We provide 'in-between' services. From GP to referral and through the wait for formal intervention such as counselling... we exist to provide a safe space to those who are experiencing life challenges such as mental ill health, physical disability diagnosis, cost of living/financial loss/risk of homelessness, those suffering with physical ill health - short, medium and longer term... and we actively work to address accessibility issues and help to enable them back into the world of work through training, qualifications and work experience placements.

## What support is needed:

Our kitchen needs a makeover, including making our facilities and equipment more accessible to those with mobility problems.

## Cafe Camaraderie CIC

## What difference it would make to our project?

We would be more accessible to wheelchair users and electric mobility aids, meaning individuals could take part in the same way more able people can. We want to be fully inclusive and diverse and offer the same experiences not just in accessing our activities - which include cooking experiences in the kitchen, but in terms of their potential desire to volunteer with us and upskill.
