

We need your help!

Project Overview

We are a small community group based in Hindley Green. We are an allotment and do crafting and woodworking. We like to reuse and recycle as much as possible

What support is needed:

Manual labour to help get the site up and running better.
We need a concrete base laying for our 20x12 community shed.
We need help building a woodworking shed from all the pallet wood we have been given.
We need a footpath laying to make the project disability friendly.

Community Skills Workshop CIC

What difference it would make to our project?

It would allow us to open and run the group better and allow the community to get together to learn basic life skills, have crafting sessions or simply come for a chat to combat social isolation
