

# We need your help!

## Project Overview

ComputerXplorers provides specialist computing classes in all sorts of settings – from after school computing clubs, fun, educational classes for nurseries, holiday and weekend camps, home schools, museums, festivals, even hospitals. We bring a passion for computing to children wherever they may be. Children of all ages attend and enjoy the workshops including those with SEN

## What support is needed:

We are offering summer workshops in the borough and are targeting children entitled to free school meals as part of the HAF programme. We need old second hand laptops that might otherwise be thrown out that we can refurbish and re use them with the children.

## ComputerXplorers Bolton and Wigan

## What difference it would make to our project?

It would allow us to offer more interactive computing activities during the summer holidays to more children of Wigan, particularly those that are disadvantaged.
