

We need your help!

Project Overview

EPiC HOPE CIC, is Wigan and Leigh's only community Suicide Prevention non-profit organisation dedicated to providing immediate support and intervention for individuals in our community who are struggling with suicidal thoughts. Our team is passionate about our mission and devotes countless hours not only to our peer support groups, EPiC HOPE Harbours, but to our outreach programme, HOPE Circuits, often finding people in outdoor areas, sometimes secluded, during their darkest moments. Our goal is to provide immediate comfort, a listening ear, and a warm drink—small gestures that can make a world of difference in a moment of crisis.

What support is needed:

We are in dire need of some kind of camper van; a safe and warm vehicle where we can offer support and comfort. Somewhere we can sit with an individual who we have just prevented from taking their life and can offer a warm drink, further resources, and time. We are humbly reaching out to local businesses, hoping that you might be able to assist us in this mission. A donation of a camper van, or financial assistance towards the procurement of one, would enable us to significantly extend our reach, help more people, and save more lives. At the moment, volunteers are using their own cars, and we can't continue doing this due to safeguarding issues.

EPiC Hope CIC

What difference it would make to our project?

Your generosity would not only provide immediate, tangible and safe support to our organisation and volunteers, but also contribute to making our communities safer, and more compassionate places for those battling mental health issues. No contribution is too small, and every bit of help will bring us one step closer to our goal of a suicide safer hometown.
