

We need your help!

Project Overview

Goose Green Cricket Club

Small family based grass roots cricket club based in Winstanley area of Wigan. Cater for all ages from 13+ and also recently started children's cricket.

What support is needed:

Recently had car park extended which has removed natural barrier that protected vehicles and people from being hit by cricket balls. We would be looking to have fencing erected to replace what has been lost to protect players, spectators and vehicles from damage/harm.

Goose Green Cricket Club

What difference it would make to our project?

It would allow the club to minimise injury/damage to its players, supporters and their vehicles, as this could cause a lot of distress to those involved. It would also help with the aesthetics of the club.
