We need your help!

The Deal

Project Overview

We empower disabled young adults to create positive social change. We deliver inclusion-based training to schools, community groups and businesses, led by people with lived experience. Our work has been recognised by multiple national awards and we have been told that our work is "a new way to see disability", whilst our team have delivered training to thousands of children, young people and adults.

What support is needed:

We are keen to progress our partnerships with local and regional organisations and welcome the support of local businesses who would like to access our corporate sponsorship offer, in return for inclusive training for your staff, a donated session to a local school and more. We are looking for accessible spaces across the borough, to support and upskill disabled young adults to join and lead our team of Inclusion Champions. Volunteers to support these sessions are always welcome, as are volunteers who would like to use their skills to support the continued growth of our organisation and its online presence. If you are, or know of, a disabled person who would like to lead positive change, please get in touch!

Happy Smiles Training CIC

What difference it would make to our project?

Working with local businesses gives us the opportunity to:
- Upskill and employ more disabled young adults
- Deliver inclusive training with local children and young people
- Change the way that disabled people are viewed and valued
Having an accessible space will allow us to bring disabled and non-disabled community members together, to reduce social isolation and provide employable skills and opportunities for disabled young adults.
Volunteers are what has sustained and grown our organisation since we began in Sept 2019. Any support from people who share our values and vision is always very welcome!
