

We need your help!

Project Overview

We are a community hub that offers the youth of the borough a chance to get fit, learn to box, meet new people from all walks of life. We have Team GB youth boxers, young England national champions all the way down to 5 year olds who just want a chance to try something new and healthy. We have classes for women alone, for children in care, for youth in crisis (Maverick Stars and the Cambian School). We are open to all 5 nights a week. We take 50-60 youths from the streets and help them build a strong skillset, based on fun/fitness/respect and discipline.

What support is needed:

We would love a local business to sponsor our Olympic youth team kits (£1000) and our English National champions (£300), we would like to improve our strength and conditioning room for our club (£1500), and we would love to be able to buy some new bags and gloves (£1500).

Leigh Boxing and Community Club

What difference it would make to our project?

We could offer more local young people the chance to achieve their potential and we could help our elite youth boxers excel further within our club with the best equipment. We could take more youths off the streets and into a brighter future.
