

We need your help!

Project Overview

Pennington Flash Volunteers is part of Leigh Ornithological Society which was formed in 1971.

The Society have championed nature conservation throughout the Borough over the years and especially Pennington Flash.

The Flash is part of the Boroughs' "National Nature Reserve"

L.O.S. played a considerable part in the work behind the scenes to help secure the designation.

The volunteers work within the council's biodiversity plan for the reserve and uses its own vast knowledge and expertise to carry out important habitat maintenance to enhance the area for all wildlife, be it fauna or flora.

Leigh Ornithological Society & Pennington Flash Volunteers. ("Not just about Birds")

What support is needed:

We have recently received offers of help from local volunteers and companies after advertising our need on this community noticeboard. More enquiries are welcome.

However, we now need preservative and decorative paint & brushes to use on hides / outbuildings. Donations of fencing timber, wire, posts, nails screws and the like.

Group name & logo

Pennington Flash Volunteers

What difference it would make to our project?

This would help greatly with the work we are carrying out at Pennington Flash, Leigh.
