

# We need your help!

## Project Overview

My Life Legacy is in Standish, working across the North West to give people a better life. Our mission is to create a community where everyone belongs and we provide a significant amount of opportunity at our flagship site in Standish. We focus on giving people who need support because of disability, mental health, special educational needs or even fleeing the Ukraine a leg up rather than a hand out. We work with individuals to achieve their goals and ambitions and find work for those who can and meaningful occupation for others. We recently acquired the full 84 acres including the operation of a state of the art equestrian facility in the heart of Standish.

## What support is needed:

We are a charity based over the Wigan area and our flagship sites on 84 acres of beautiful countryside in Standish. We have a lot of land, animals, and equines to take care of and are always looking for volunteers from teams who want a great experience, plus some team building to individuals who want to improve their fitness, lose a bit of Christmas weight and get to know our horses. We have plenty to do from land based management, running events, animal care, horticulture, woodwork and so much more. Anything goes, we can design your volunteering experience bespoke for you and your colleagues as a one off or a regular event.

## My Life Legacy

## What difference it would make to our project?

Significant to people, the countryside and the wider community. Importantly it will make you feel good - fresh air, fun and friendships.
