

We need your help!

Project Overview

We are an umbrella organisation for lots of different community groups and we also run projects which we fundraise for. We have launched seated yoga sessions, planted memorial trees, and supported local schools and community groups with various projects. We are also a registered charity.

What support is needed:

Social media support – running the Facebook and Twitter accounts, making up posters digitally for events, and joining our neighbourhood WhatsApp groups to share events and info in as many places as possible online.

Shevington & District Community Association

What difference it would make to our project?

It would help the events to be better attended and run more successfully, sustaining the groups/events for the future. It would alleviate loneliness as we have an ageing population and new parents etc who want to get involved with groups but perhaps need a little more information.
