

We need your help!

Project Overview

S2G wants to create a space to connect people with food - from seed to plate - and everything that happens in-between.

- grow healthy, nutritious food in a safe and accessible space.
- learn and practice sustainable/permaculture solutions.
- learn about soil health and maintainance.
- make nutritious compost from food & garden waste.
- provide educational workshops & projects for local schools.
- create an outdoor social space.
- create volunteering/wellbeing opportunities with local businesses.
- build planters/raised beds from unused pallets.
- create opportunities for woodwork/building projects & workshops (pallet projects/poly tunnel/potting shed etc).
- maintain the Permaculture values & principles of 'Earth Care, People Care, Fair Share'.

What support is needed:

Volunteers, Tools, Donations, Sharing the Word, Expertise, Seeds/Plants/Pots, Timber, Paint, Roof Felt, Hardware

Space to Grow @ Fur Clemt

What difference it would make to our project?

To sustain the growth, stability and longevity of the project and assist it to meet its aims
