

We need your help!

Project Overview

Our school is undertaking a garden project and would like to request your support.

We have asked our pupils to design a garden area in an unused section of our school grounds and with the help from our Eco Warriors and support from Wigan Council we have created our design.

The garden will not only be a valuable addition to our outdoor environment but will help with Biodiversity. We would also like to enhance this area with quiet, calm reflection spaces as well as reading areas to promote shared and quiet reading. The last 2 years have been a real challenge for all of us, but particularly children. Our vision is to use this space to promote children's mental health, wellbeing and positive development.

What support is needed:

We would love your support to help develop this space, from creating different spaces using various materials to planting.

**St Peter's C. of E.
Primary School,
Hindley**

What difference it would make to our project?

It would mean that our whole school community can start using this valuable space instead of it currently being a wasteland. The children will have an outdoor space where they can sit, socialise, reflect and learn whilst appreciating the natural environment and its habitants.
