

We need your help!

Project Overview

We are a Bowling Club that supports 8 teams, for male and female, and mixed players. The club is available to all age groups. The majority of our membership is mainly the older generation, but there is no age limit. We also run an afternoon once a week for none-members which is very successful.

What support is needed:

We need support to repair the corner of the footpath on one side of the green, as it is now in a very unstable situation and dangerous state of collapse. This needs to be corrected before the new start in 2024. This is a major health and safety issue that our aged members cannot deal with.

St Wilfrid's Bowling Club, Standish

What difference it would make to our project?

It would make that area of the premises safe for people to enjoy fully the facilities we have.
