

We need your help!

Project Overview

We are a Community Centre, a Hub for the local community of Orrell, but we also extend to the neighbouring communities. We have many local groups, activities and events that run out of our Centre, and we cater to a diverse group of individuals who use the facility. Our goal is to combat isolation and for those who need extra support, we link them into the appropriate services. We also aim to help bring back the community connection.

What support is needed:

Everything from practical support such as help renovating, new flooring, new bathrooms, new windows, financial support and also items/furnishings/storage would be greatly appreciated for the Centre and the Cafe.

The Connect Centre at Living Faith Church

What difference it would make to our project?

It would help facilitate our group activities and events, it would enable us to provide more activities for our community and would create a lovely environment for those who use the Centre.
