

We need your help!

Project Overview

We are a Community Centre which runs many community groups, we have a Community Cafe, Post Office and we also run many community events from our Centre. We are a safe, warm and welcoming place for everyone regardless of age, ability, background, gender or culture.

What support is needed:

We need a static storage container to place on our property for extra storage.

The Connect Centre

What difference it would make to our project?

We are looking at starting a Charity Shop at our Centre and need to empty out a space that we could use. The Charity Shop was inspired by the local Asylum Seekers who struggle finding work due to their English Skills and their previous working skills not being recognized in the UK. We would like to provide a place for them to start again. Thank You!
