

# We need your help!

## Project Overview

We are a community bike shop that takes donated bikes and bikes from the recycle centre. We service them and get them back out into the local community. Our aims are to reduce emissions and waste, to get people using bikes and reduce the amount of traffic on the roads while getting people healthy.

## What support is needed:

We are looking for local businesses who can supply maintenance equipment such as; cleaning products, penetrating oil (WD40) and lubricants. Any bike specific tools and spanners are also needed. We are also looking for shops to locate our collection boxes. If you would like to volunteer at the project there are lots of roles available and if you do have an unwanted bike please donate

## Wigan Cycle Project

## What difference it would make to our project?

We try our very best to be self supporting and to keep providing this great service to the local community. We do however need your help with the mentioned items to keep us running and recycling unwanted bikes. We believe cycling is the solution to many problems and we aim to keep providing local people with the bikes they need.
