

Service: Hidden Voices

Module Description:

Looking for new & interesting lesson plans that meet your needs and yet engages with students in an exciting way? This free digital resource pack is aimed at preventing homelessness through early intervention with young people but in a format that uses creativity and literacy skills. It's yours! You can utilise this resource for free within your lessons from now on. It has been designed to align with OFSTED aims for developing the social, moral and cultural delivery of students during delivery of the National Curriculum, but will also get your students thinking about homelessness and how it could happen to them/their peers..

The resource is exciting and adaptable using a range of engaging and inspiring lesson ideas around the theme of "homelessness". Students are encouraged to develop, refine and extend a number of key skills. Special emphasis is placed on engagement. Notes for both teachers and students are included as part of the digital resource.

Developed by Curriculum Plus for Inspiring healthy lifestyles (previously WLCT) & Wigan Council, the module can be delivered by your own staff or Curriculum Plus will offer training, support and module delivery.

Benefits of this initiative:

- Free online resource - use it straight away & tell us what you/your students think
- Early intervention of homelessness and broader worklessness agendas— students can see how homelessness occurs and how it may effect them or their peers
- Engagement of students at centre of approach, meeting OFSTED key aims
- You could access additional workshops to complement the module and/or arrange for training of your staff to deliver.
