

## Restorative Solutions

### Module Description: Anti-Social Behaviour

We are able to provide a range of tailor made Anti-Social Behaviour workshops for young people who attend mainstream and alternative education provision. Typically but not all of the young people targeted maybe displaying signs of problematic behaviour in the school and in the community environment.

Workshops can be delivered throughout the week (morning, afternoon & evenings with the duration of each session from 30minutes to an hour depending on your individual requirements. We can be flexible in the delivery to ensure we suit your need.

### Benefits of this initiative:

- To help the young person identify what anti-social behaviour is
- To help young person examine the impact of their anti-social behaviour
- To help the young person gain an understanding of what community is, and how the community is affected by anti-social behaviour.
- To help the young person link their thoughts, feelings and behaviour to enhance problems solving skills.
- To help young people develop skills in dealing with peer pressure.
- To help young people develop future plans in relation to dealing with anti-social behaviour
- To help young people develop future plans in relation to dealing with anti-social behaviour.
