

# How to do a school tie

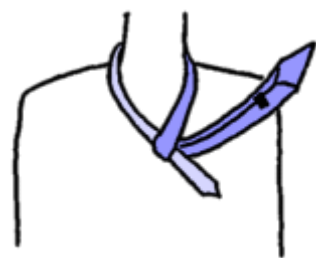

1. At the beginning, the wide end of the tie should be on your right side and the other end should be on your left side.

2. Cross the wide end over the other end. Now three regions are formed (Left, Right and Centre).

3. Bring the wide end underneath the narrow end from Left to Right.

4. Bring the wide end over to the Centre region.

5. Bring the wide end under the knot to the Left region.

6. Bring the wide end out of the shirt from Left to Right.

7. Bring the wide end under the knot to the Centre region.

8. Bring the wide end down and pass the loop in front. Ensure that the knot is tightened.

9. Use one hand to pull the narrow end down gently and use the other hand to move the knot up until it reaches the centre of the collar.
