

## Account book of John Yates of Leigh, Surgeon

Covering Dates: 1798-1835

Reference Code: D/DZA/2867

The account book of John Yates, surgeon, details the names and addresses of patients attended by him in the course of his medical practice. The transcription below gives names and addresses of his patients; the full manuscript also gives details of treatments provided and the cost of the surgeon's services. He attends a variety of cases, including regularly women in labour, unusual for the period and for a surgeon rather than a mid-wife. No record is given of the outcome of treatments or effect upon patients.

Index produced by Peter Spencer and Janice Hatton, Archive Volunteers
