SR/137 Records of Emmanuel School, Ashton-in-Makerfield, Admission Registers, 1870-1919

Emmanuel School later became known as Richard Evans County Primary School although most local people referred to it as 'The British School'.

It was later converted to the Ashton View Care Home on Wigan Road.

The non-denominational 'British Schools' were founded by the British and Foreign School Society, established in 1808 as a Society for Promoting the Lancastrian System for the Education of the Poor by Joseph Fox, William Allen and Samuel Whitbread; it was supported by several evangelical and non-conformist Christians. The school was funded by the local coal mine owners, the Evans family.

The transcribed registers cover the admission of children into the Junior Department, mainly from the Infants Department but also has others transferred from other schools and districts. The dates run from 31 March 1870 to 1 July 1919 and list 5,750 children. During these years many changes were made to the education system including the raising of the leaving age from 11 to 13 and the establishment of Local Education Authorities.

Some details are given of parent's names with addresses, although this is quite vague in the earlier registers and reference to the following attached list will help identify some of the 'terraces' and older street names which are no longer in use.

The final column also has abbreviations such as L.C. (Labour Certificate) and exempt. This refers to the fact that the child left having reached the required age or standard of education.

An * suggests that there may be a query on the transcription and the original should be checked.

Additional records for the school can be viewed at the Archives.

The transcription was kindly produced by Glenys McClellan, Archives & Local Studies Volunteer
