Subject: Bradley Lane, Standish

Dear Resident,

Bradley Lane – Infrastructure improvements

We would like to update you about the highways improvement scheme on Bradley Lane in Standish. To enhance the traffic flow and ensure safer passage, shuttle signals have been proposed. The works to install these were due to start from 24th July 2023 and last for approximately two weeks.

We are listening carefully to feedback from across the community, and following this have taken the decision to pause the works whilst this is considered.

We are grateful for your patience and continued cooperation, as we look again at proposals to best address concerns on Bradley Lane.

Should you have any questions or further feedback please do not hesitate to contact us on the email address above.

Yours sincerely,

Major Projects
